The screenshot shows a web browser window displaying an RSS article from Microsoft. The article title is "Save time with quick computer shortcuts" and it discusses keyboard shortcuts for Windows. A red circle highlights the main content area of the article, including the introduction, a quote from Rachel Brown, and a table of shortcuts.

Save time with quick computer shortcuts
Learn keyboard combinations to quickly access programs, functions, and documents
Published: September 20, 2004
By US Outcast

As a new mom, Rachel Brown is always looking for ways to save time. "When I have the chance to sit down at my computer, I need to get at what I'm working on as quickly as possible," says Brown, who uses her computer to keep in touch with family and friends.

Brown discovered the power of shortcuts and keystrokes while she was still working. "Before taking my maternity leave, I worked in a bilingual environment," she explains. "I learned the keystrokes for the French accents that were essential in all of my correspondence." She also learned a few other time-saving tricks such as highlighting text, using the Bold function, and creating new documents.

If you're looking to work more efficiently in Microsoft [Word](#), [Excel](#), or [Internet Explorer](#), the key is using programmed shortcuts.

Driving around your desktop

To...	Use this shortcut
Select a file/folder/icon	Type the first letter of the file. If you have several files starting with the same letter, continue hitting the letter key until your cursor lands on the file or folder you want.
Search for a file/folder	F3
Rename a file/folder	Select the file/folder, click F2, and then re-type the name.

2. [sage update download](#)
3. [sage update v27](#)

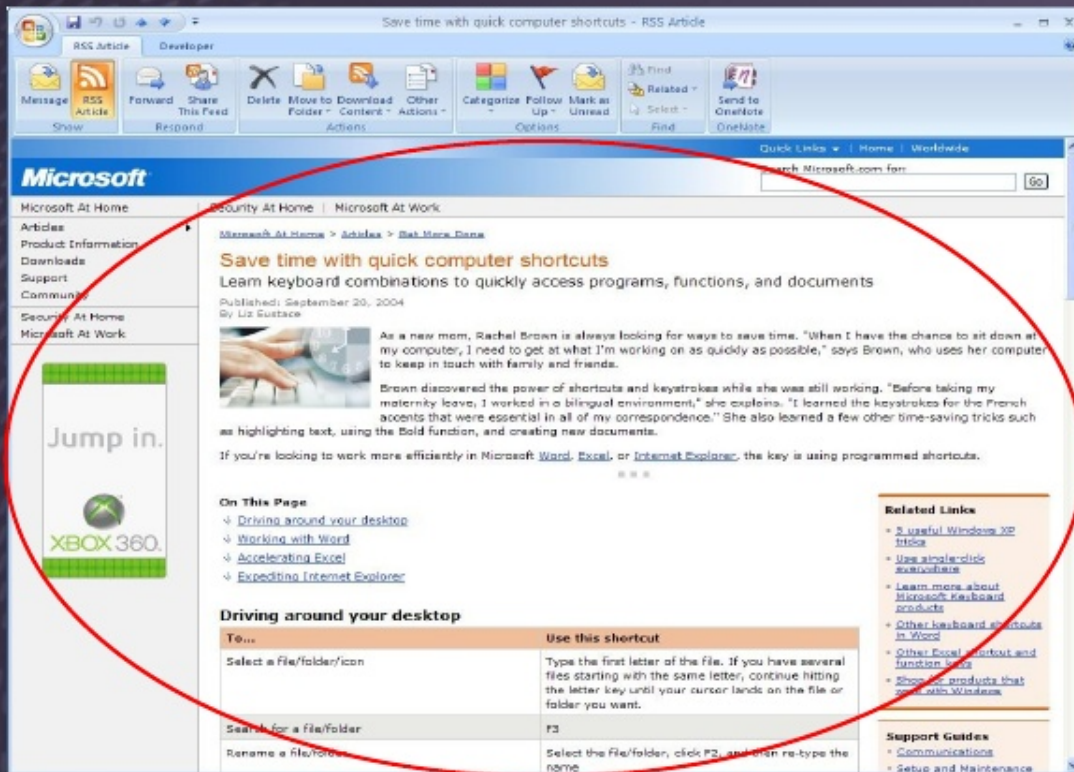

You can then download their payment directly into Sage 50 as a cash receipt (Receive Money) transaction and it will be applied to the invoice just as if you had entered it yourself.. The second update (2017 2) to Sage 50 2017 Programs are updated in July and Service Releases are in October and March.. 1 Three significant improvements have been made to online/mobile invoicing (1) Your Sage 50 sales taxes are automatically uploaded to Sage One.. (3) Receipts (from customers who use the click-to-pay option) are automatically downloaded into Sage 50.. Everyone in a current subscription or Business Care plan will receive the download notification when it is available.

These were properly closed out to Retained Earnings at year end 2013, and Retained Earnings has been correct all year.. So I had to download Chrome, and We have two accounts in our chart of accounts that are 'Equity - gets closed' accounts.. This update includes: Click-to-Pay Invoicing: If you use Sage Payment Solutions to process credit/debit cards or virtual checks (ACH payments), you can now include a link when you email an invoice so your customer can pay online.. Until yesterday We are on

2015 version of Sage 50 by the way While working on December month end - posting journal entries, etc but not closing the month or the year 2014 yet, all of a sudden our beginning Ret Earnings balance (as of 1/1/2014) is not correct because it does not include the full year 2013 amounts from these 2 accounts that had been correctly close into Retained Earnings.. Contact information changed in the Sage Contact app will sync back to your Sage 50c data.. The link will take them to a secure web page where they can enter a credit/debit card or their bank information.. I don't know what to do to correct this, since it is not due to an incorrect journal entry or transaction, but some kind of 'system' issue. 34bbb28f04 [The Hunchback Of Notre Dame \(Disney\) Watch Online](#)
